25X1 1. [redacted] Comment. Shipments of construction material for the enlargement of Schorfheide airfield.

25X1 2. [redacted] Comment. Supplement report brings up the number of Soviet supply shipments loaded at 53 railroad stations in the Dresden railroad district in August from 537 to 674 carloads.

25X1 3. [redacted] Comment. Probably, ammunition shipments.

25X1 4. [redacted] Comment. Of the 42 railroad stations mentioned, 35 were compared with stations listed in the preceding month. The comparison showed a slight decrease in the volume of loadings handled in the Dresden district. Not counting 21 carloads construction material for Schorfheide airfield, there remain 487 carloads for supply traffic. Supplementary information is expected as the shipments loaded at only 42 railroad stations were reported.

25X1 5. [redacted] Comment. The traffic relations are known; they do not indicate changes
